

# 【Cautions during poster sessions】

- When listening to the sessions, please mute (audio off) the microphone except when asking a question.
- If you have any questions during the session, please send “your name and organization/company” using the Chat feature.
- After the chairperson gives permission to speak, you are permitted to switch off the mute button.
- As the time to conduct the session is limited, it may not be possible to respond to all the questions.
- If any participant interferes with the progress of the session, the chairperson will advise caution. If this is still not met with compliance, the person may be requested to withdraw from the session.
- Video and audio recordings of the session and taking screenshots are prohibited.
