

Program No	Program	Presentation Type	Submission No	Title	Name			Affiliation
					First	Middle	Family	
IG4-1	General presentation(Education)	Poster	C000010	Survey on attitudes of dental hygienist students toward dental surgery for persons with disabilities	MITSUHIRO		NISHIZAWA	Department of Dentistry,Guneikai Tanaka Hospital
IG6-1	General presentation(Others)	Poster	C000012	Reinsertion of a nasogastric tube that became dislodged during oral care in a patient with cerebrovascular dementia	Kazumichi		Yonenaga	Department of Eat-loss Medicine, Graduate School of Medicine, The University of Tokyo
IG6-2	General presentation(Others)	Poster	C000013	Oral care using oral wet sheets	Kazumichi		Yonenaga	Department of Eat-loss Medicine, Graduate School of Medicine, The University of Tokyo
IG6-3	General presentation(Others)	Poster	C000014	Oral care for a case of osteonecrosis of the jaw	Kanata		Tonosaki	Department of General Medicine, Towada City Hospital
IG6-4	General presentation(Others)	Poster	C000016	Observation points before starting oral care	Shunsuke		Itai	Department of Eat-loss Medicine, Graduate School of Medicine, The University of Tokyo
IG3-1	General presentation(Case report)	Poster	C000021	A case of IgG4-related disease with the Vincent symptom on peri-implantitis during long term prednisolone therapy	Keigo		Kubota	Department of Oral-Maxillofacial Surgery, Dentistry and Orthodontics, The University of Tokyo
IG3-2	General presentation(Case report)	Poster	C000032	The Report on the Home Visit Dental Practices in the Alto Clinic of General Dentistry and Oral Surgery	Shunya		Nagaoka	Alto Dental Office
IG4-2	General presentation(Education)	Poster	C000035	Current state of oral care among care managers in the Kanto Region	Junko		Koyama	TOYASHI SOZO UNIVERSITY
IG1-1	General presentation(Clinical study)	Poster	C000038	Effect of headlight for ward oral care	Susumu		Hashitani	Oral and Maxillofacial Surgery, Takarazuka municipal hospital
IG1-2	General presentation(Clinical study)	Poster	C000039	Oral management with Polaprezinc solution reduces oral and systemic adverse events in hematopoietic stem cell transplantation patients	Maki		Tsubura-Okubo	Department of Oral and Maxillofacial Surgery, Dokkyo Medical University School of Medicine
IG1-3	General presentation(Clinical study)	Poster	C000041	Relationships among Dementia, Motivation for Activities of Daily Living, and Tongue Coating	HIYORI		MAKINO	Faculty of Psychological and Physical Science, Aichi-Gakuin University
IG6-5	General presentation(Others)	Poster	C000043	Usefulness of the Presence of Family Members Just Before the Induction of Anesthesia in Patients with Cleft Palate/Lips: Medical Cooperation	Harumi		Ejiri	College of Life and Health Sciences, Chubu University, Japan
IG1-4	General presentation(Clinical study)	Poster	C000045	Exploration of correlation of oral hygiene and condition with influenza infection	Hirokazu		Tanaka	Department of Dentistry and Oral Surgery, Shinshu University School of Medicine
IG1-5	General presentation(Clinical study)	Poster	C000047	Association between oral health and the prevalence of Gram-negative bacilli in hematology department inpatients	Kunio		Yoshizawa	Department of Oral and Maxillofacial Surgery, Division of Medicine, Interdisciplinary Graduated School, University of Yamanashi
IG1-6	General presentation(Clinical study)	Poster	C000062	Effect of cancer treatment on the worsening of periodontal disease and dental caries: A preliminary, retrospective study	Sakiko		Soutome	Department of Oral Health, Nagasaki University Graduate School of Biomedical Sciences
IG1-7	General presentation(Clinical study)	Poster	C000073	Effects of the ultrasound and sonic toothbrushes on oral hygiene and dysphagia in convalescent post-stroke patients: A randomized controlled study	Shuji		Matsumoto	Center of Medical Education, Faculty of Health Sciences, Ryotokuji University, Chiba, Japan
IG1-8	General presentation(Clinical study)	Poster	C000077	Current state and future agenda for the practice of oral health management in The University of Tokyo Hospital	Tamano		Sasaki	The University of Tokyo Hospital
IG1-9	General presentation(Clinical study)	Poster	C000081	Oral function management for oral mucositis induced by chemotherapy at our hospital	Toshiro		Yamamoto	Department of Dentistry, University Hospital Kyoto Prefectural University of Medicine
IG1-10	General presentation(Clinical study)	Poster	C000084	Comparative study of methods for handling dental metal crowns during radiotherapy for head and neck cancer	Toshihiro		Motoi	Department of Preventive Dentistry, Kagoshima University Graduate School of Medical and Dental Sciences

Program No	Program	Presentation Type	Submission No	Title	Name			Affiliation
					First	Middle	Family	
IG1-11	General presentation (Clinical study)	Poster	C000086	A study of segmental mandibulectomy for medication-related osteonecrosis of the jaw	Mitsunobu		Otsuru	Department of Clinical Oral Oncology, Nagasaki University Graduate School of Biomedical Sciences
IG3-3	General presentation (Case report)	Poster	C000091	Case of Oral Management in a Patient with B Cell Precursor Acute Lymphoblastic Leukemia with Down's Syndrome	Yasuko		Nojima	The Center for Special Needs Dentistry, Okayama University Hospital
IG1-12	General presentation (Clinical study)	Poster	C000097	Comparison of tongue coating removal methods: A randomized-controlled study	Madoka		Funahara	School of Oral Health Sciences, Kyushu Dental University
IG1-13	General presentation (Clinical study)	Poster	C000102	Factors related to severe oral mucositis and candidiasis in 326 patients undergoing radiotherapy for oral and oropharyngeal carcinomas	Mika		Nishii	Department of Oral and Maxillofacial Surgery, Kobe University Graduate School of Medicine
IG1-14	General presentation (Clinical study)	Poster	C000103	CLINICAL AND BACTERIOLOGICAL ASSESSMENT OF PERIOPERATIVE ORAL MANAGEMENT WITH PROFESSIONAL ORAL CARE AND ANTIBACTERIAL SELF-CARE AGENTS	Hiroki		Otagiri	Department of Dentistry and Oral Surgery Shinshu University school of Medicine
IG1-15	General presentation (Clinical study)	Poster	C000108	Study of prognostic factors in intraarterial infusion chemoradiotherapy for oral cancer	Jun		Ueda	Oral maxillofacial surgery, The Nippon Dental University Niigata Hospital, Niigata, Japan
IG2-1	General presentation (Basic research)	Poster	C000116	Inhibition of cell attachment with poly(2-hydroxyethyl methacrylate) coated materials for oral care	Mikako		Harata	University of Iowa
IG5-1	General presentation (Approach and management)	Poster	C000118	The contribution of dental hygienists to diabetes education—second report	Sayaka		Yamanaka	Iwata City Hospital Oral and Maxillofacial Surgery
IG4-3	General presentation (Education)	Poster	C000122	Investigation on the contamination of the surroundings caused by oral care	Tokuko		Higashino	Japanese Red Cross Toyota College of Nursing
IG2-2	General presentation (Basic research)	Poster	C000124	Gli1-positive periodontal ligament cells differentiate into osteoblasts during orthodontic tooth movement	Yuri		Seki	Division of Histology, Department of Oral Growth and Development, School of Dentistry, Health Sciences University of Hokkaido, Hokkaido, Japan
IG1-16	General presentation (Clinical study)	Poster	C000129	Associations of Gingivitis with Systemic Diseases in Late Adolescence in Japan	Masanobu		Abe	Division for Health Service Promotion, The University of Tokyo
IG1-17	General presentation (Clinical study)	Poster	C000130	Gender Difference in Oral Hygiene Behavior and Its Impact on Periodontal Health	Masanobu		Abe	Division for Health Service Promotion, The University of Tokyo
IG1-18	General presentation (Clinical study)	Poster	C000133	Prevention of dental caries by low-concentration fluoride gel in patients with head and neck cancer	Sakiko		Soutome	Department of Oral Health, Nagasaki University Graduate School of Biomedical Sciences
IG1-19	General presentation (Clinical study)	Poster	C000137	Survey on the actual condition after 2 years at the Perioperative Oral Care Center at the University of Miyazaki Hospital	Yuri		Nakamura	Division of Oral and Maxillofacial Surgery, Department of Medicine of Sensory and Motor Organs, Faculty of Medicine University of Miyazaki
IG5-2	General presentation (Approach and management)	Poster	C000144	Long-term outcomes of tooth extractions in patients with fibrodysplasia ossificans progressiva: a report on three cases	Yuko		Fujihara	Department of Oral and Maxillofacial Surgery, Graduate School of Medicine, The University of Tokyo
IG4-4	General presentation (Education)	Poster	C000150	Survey of home oral care provided by visiting nurses for elderly people who require nursing care in the Kanto Region	Emi		Ishida	Japanese Red Cross Toyota College of Nursing
IG2-3	General presentation (Basic research)	Poster	C000153	Differentiation ability of Gli1-positive periodontal ligament cells after tooth extraction	Saki		Fujii	Division of Reconstructive Surgery for Oral Maxillofacial Region, Department of Human Biology and Pathophysiology, School of Dentistry, Health Sciences University of Hokkaido
IG1-20	General presentation (Clinical study)	Poster	C000170	Clinical study of hemorrhage complications after tooth extraction in patients taking DOACs	Maho		Murata	Department of Clinical Oral Oncology, Nagasaki University Graduate School of Biomedical Sciences
IG3-4	General presentation (Case report)	Poster	C000172	Preoperative OPD outpatient survey of regular dental visits in Juntendo Hospital	Sae		Watanabe	Oral and maxillofacial Surgery, Juntendo University Hospital

Program No	Program	Presentation Type	Submission No	Title	Name			Affiliation
					First	Middle	Family	
IG1-21	General presentation (Clinical study)	Poster	C000180	Clinical Investigation of Episil Oral Solution for Oral Mucositis during Radiochemical Treatment for Head and Neck Cancer	Yuji		Kabasawa	Department of Oral Care for Systemic Health Support, Graduate School of Medical and Dental Sciences, Tokyo Medical and Dental University
IG3-5	General presentation (Case report)	Poster	C000182	A case of bleeding after tooth extraction in a patient scheduled for liver transplantation	Tadafumi		Kurogi	Oral Management Center, Nagasaki University Hospital
IG1-22	General presentation (Clinical study)	Poster	C000186	Evaluating the efficacy for supporting detection and diagnosis of gingivitis by using deep learning algorithm	Hoan	Quoc	Nguyen	School of Odonto-Stomatology, Hanoi Medical University
IG1-23	General presentation (Clinical study)	Poster	C000192	A retrospective study of neutrophil-to-lymphocyte ratio associated with severe radiotherapy-induced mucositis in patients with pharyngeal or laryngeal cancer	Yumiko	Kawashita	Kawashita	Department of Oral Health, Nagasaki University Graduate School of Biomedical Sciences
IG1-24	General presentation (Clinical study)	Poster	C000193	Automatic Pairing of Medical Information and Images That Are Not Linked to It	Akari		Noda	Graduate School of Medicine, The University of Tokyo, Japan
IG1-25	General presentation (Clinical study)	Poster	C000195	Five-class Classification of Oral Images Using Deep Learning and Its Challenges	Akari		Noda	Graduate School of Medicine, The University of Tokyo, Japan
IG3-6	General presentation (Case report)	Poster	C000197	Oral care and advanced care planning helped a man enjoy meals to the end of his life	Yuriko		Hashimoto	Tokyo University and Graduate School of Social Welfare
IG1-26	General presentation (Clinical study)	Poster	C000199	Factors Influencing Oral Care Independence	Kazuo		Takeuchi	Department of Gerodontology and Home Care Dentistry, School of Dentistry, Aichi Gakuin University
IG1-27	General presentation (Clinical study)	Poster	C000202	Relationship between Masticatory Function and Bone Mineral Density among Community-dwelling Elderly: A Cross-sectional Study	Kumi		Ikebuchi	Department of Oral and Maxillofacial Surgery / Oral Care Center, Shimane University Faculty of Medicine
IG1-28	General presentation (Clinical study)	Poster	C000203	Relationship between Oral Health Status and Bone Mineral Density in Community-dwelling Elderly Individuals: A Cross-sectional Study	Mayu		Takeda	Department of Oral and Maxillofacial Surgery, Shimane University Faculty of Medicine
IG2-4	General presentation (Basic research)	Poster	C000205	Establishment of mouse ARONJ model for the elucidation of its pathophysiology and the establishment of novel treatment methods	Hisao		Igarashi	Department of Sensory and Motor System Medicine, Department of Oral-maxillofacial Surgery, Dentistry and Orthodontics, Graduate School of Medicine, The University of Tokyo, Tokyo, Japan.
IG3-7	General presentation (Case report)	Poster	C000207	A case of infective endocarditis associated with asymptomatic bilateral semi-impacted mandibular wisdom teeth	Kazutaka		Nakamura	Department of Oral-maxillofacial Surgery, Dentistry and Orthodontics, The University of Tokyo Hospital
IG1-29	General presentation (Clinical study)	Poster	C000208	Effect of a dentifrice containing 0.12% chlorhexidine digluconate on the oral health of patients submitted to alveolar graft with rhBMP-2	Marcos Roberto		Tovani-Palone	Hospital for Rehabilitation of Craniofacial Anomalies, University of Sao Paulo, Bauru, Brazil
IG2-5	General presentation (Basic research)	Poster	C000212	Improvement of systemic dryness by oral administration of rooibos extract in mice via the M ₃ muscarinic acetylcholine receptor	Rieko		Arakaki	Department of Oral Molecular Pathology, Tokushima University Graduate School of Biomedical Sciences
IG3-8	General presentation (Case report)	Poster	C000214	Bacteremia caused by Capnocytophaga gingivalis due to chemotherapy in a patient with acute myelogenous leukemia	Taihei		Yamaguchi	Department of Preventive Dentistry, Research Field in Dentistry, Medical and Dental Sciences Area, Kagoshima University
IG3-9	General presentation (Case report)	Poster	C000215	A case of mixed infections in the oral cavity	Nobuaki		Tamura	Division of Geriatric Dentistry, Department of Diagnostic & Therapeutic Sciences, MEIKAI University School of Dentistry
IG1-30	General presentation (Clinical study)	Poster	C000217	The impact of COVID-19 on perioperative oral management in our hospital	Sumire		Kusuhara	Division of Medical Technology, Ehime University Hospital
IG3-10	General presentation (Case report)	Poster	C000222	Research to establish guidelines for the use of oral devices for decubitus ulcers of the oral cavity	Junya		Ogami	Asahikawa Medical University, Department of Oral and Maxillofacial Surgery
IG3-11	General presentation (Case report)	Poster	C000229	A case of pemphigus vulgaris diagnosed by tongue biopsy that improved with steroid pulse therapy and oral care	Ayuko		Sakakibara	Department of Oral-Maxillofacial Surgery, Dentistry and Orthodontics, University of Tokyo Hospital

Program No	Program	Presentation Type	Submission No	Title	Name			Affiliation
					First	Middle	Family	
IG3-12	General presentation (Case report)	Poster	C000231	Oral Care Management of Lymphoplasmacytic Lymphoma/Waldenstrom's Macroglobulinemia with Poor Oral Hygiene : A Case Report	Aiko		Kurosaka	Department of Oral-Maxillofacial Surgery, Dentistry and Orthodontics, The University of Tokyo Hospital
IG3-13	General presentation (Case report)	Poster	C000234	Oral care for a head and neck metastatic cancer patient treated with pembrolizumab	Maya		Watanabe	The University of Tokyo Hospital
IG2-6	General presentation (Basic research)	Poster	C000235	Third Molar Angulation Changes in Class II Div I Malocclusion Subjects Treated with Extraction of Four Premolars: A Retrospective Study	Keerthan		Shashidhar	A B Shetty Memorial Institute of Dental Sciences, NITTE Deemed to be University
IG3-14	General presentation (Case report)	Poster	C000238	Ingenuity to prevent pressure ulcers on the nose bridge when wearing N95 respirators	Ko		Ito	Department of Oral and Maxillofacial Surgery, Faculty of Medicine, Saitama Medical University
IG1-31	General presentation (Clinical study)	Poster	C000241	A cross-sectional analysis of the baseline data from a cohort study on community-dwelling elderly people: The Tanegashima Study	Hirota		Takayama	Department of Oral and Maxillofacial Surgery, Kagoshima University Graduate School of Medical and Dental Sciences
IG1-32	General presentation (Clinical study)	Poster	C000242	Relationship between oral bacteria count and postoperative complications among patients with cardiovascular disease treated by surgery: a retrospective cohort study	Rie		Osako	Department of Oral and Maxillofacial Surgery, Shimane University Faculty of Medicine & Oral Care Center, Shimane University Hospital
IG2-7	General presentation (Basic research)	Poster	C000243	Basic Evidence on Antibacterial and Antioxidant Effects of Mouthwashes Aimed at Oral Care to Protect Oral Flora	Tomoko		Komatsu	Division of Dentistry for the Special Patient, Department of Critical Care Medicine and Dentistry, Kanagawa Dental University
IG2-8	General presentation (Basic research)	Poster	C000248	Investigation of the antimicrobial effects of various oral care supplies	Sayaka		Kojima	Dept. Oral. Max. Surg., Grad. Sch. Med., Ehime Univ.
IG3-15	General presentation (Case report)	Poster	C000252	Using Episil® for a Case of Chemoradiotherapy-Induced Oral Mucositis in a Pediatric Patient	Yumi		Miwa	Department of Oral-Maxillofacial Surgery, Dentistry and Orthodontics, The University of Tokyo Hospital
IG2-9	General presentation (Basic research)	Poster	C000253	Comparison of cellular and differentiation characteristics of mesenchymal stem cells derived from human gingiva and periodontal ligament.	Tarona	Azem	Subba	Nitte University
IG6-6	General presentation (Others)	Poster	C000254	The current situation of Oral Care in Head and Neck Cancer in Mongolia.	Davaasuren		Amgalanbaatar	Division of Research and Treatment for Oral and Maxillofacial Congenital Anomalies, School of Dentistry, Aichi-Gakuin University, Japan
IG3-16	General presentation (Case report)	Poster	C000267	A case in which chemoradiotherapy was performed for ameloblastic carcinoma with attention to oral adverse events	Kazutaka		Nakamura	Department of Oral-maxillofacial Surgery, Dentistry and Orthodontics, The University of Tokyo Hospital
IG5-3	General presentation (Approach and management)	Poster	C000270	J Block Corticocancellous Iliac Bone Grafting for post-traumatic premaxilla - a worth-promoting technique in Southeast Asia	Edward	Chengchuan	Ko	School of Dentistry, College of Dental Medicine, Kaohsiung Medical University, Kaohsiung, TAIWAN
IG3-17	General presentation (Case report)	Poster	C000271	Good Post-op Result Without Placement of Mesh for Blow-out Fracture in a Case with Lateral Orbital Rim Defect	Edward	Chengchuan	Ko	Division of Oral and Maxillofacial Surgery, Kaohsiung Medical University Hospital, Kaohsiung, TAIWAN
IG1-33	General presentation (Clinical study)	Poster	C000276	Comparison of different lymph node staging systems in patients with nodes positive for oral squamous cell carcinoma	Nan Chin		Lin	China Medical University
IG5-4	General presentation (Approach and management)	Poster	C000278	Community healthcare network at Tsurumi University Dental Hospital for the promotion of perioperative oral management	Hisako		Fujihara	Tsurumi Junior College
IG3-18	General presentation (Case report)	Poster	C000279	Current status and issues of oral examinations in a preoperative OPD by dental hygienists in Juntendo Hospital	Shiho		Koroku	Oral and maxillofacial Surgery, Juntendo University Hospital
IG1-34	General presentation (Clinical study)	Poster	C000280	Alteration of oral flora in patients with Behçet's disease	Daichi		Hiraki	Division of Reconstructive Surgery for Oral and Maxillofacial Region, Department of Human Biology and Pathophysiology, School of Dentistry, Health Sciences University of Hokkaido
IG1-35	General presentation (Clinical study)	Poster	C000281	Clinical analysis of the involvement of Candida albicans in oral abnormal sensation	Kazumasa		Mori	Division of Oral and Maxillofacial Surgery, Department of Diagnostic and Therapeutic Sciences, Meikai University School of Dentistry

Program No	Program	Presentation Type	Submission No	Title	Name			Affiliation
					First	Middle	Family	
IG5-5	General presentation (Approach and management)	Poster	C000285	2019-2020 Review of the Mongolian National Campaign "Healthy tooth - Healthy Child"	Tselmuun		Chinzorig	Division of Research and Treatment for Oral and Maxillofacial Congenital Anomalies, School of Dentistry, Aichi Gakuin University, Japan
IG5-6	General presentation (Approach and management)	Poster	C000286	2010 - 2015 Preliminary retrospective analysis of the Department of Head and Neck Surgery, National Cancer Center of Mongolia	Tselmuun		Chinzorig	Division of Research and Treatment for Oral and Maxillofacial Congenital Anomalies, School of Dentistry, Aichi Gakuin University, Japan
IG6-7	General presentation (Others)	Poster	C000291	Association between malocclusion traits and psychological symptoms in Mongolian population	Zolzaya		Bodikhuu	Mongolian National University of Medical Sciences, School of Dentistry
IG5-7	General presentation (Approach and management)	Poster	C000294	The medical treatment system of perioperative oral management in the Department of Dentistry, The Cancer Institute Hospital of Japan Foundation for Cancer Research	Takao		Uchiyama	Department of Dentistry, The Cancer Institute Hospital of Japan Foundation for Cancer Research
IG6-8	General presentation (Others)	Poster	C000295	ASSOCIATION BETWEEN FACIAL ASYMMETRY AND MANDIBULAR TOOTH ABSENCE	Tsend-Ayush		Batbayar	Mongolian National University of Medical Science
IG3-19	General presentation (Case report)	Poster	C000304	Pyogenic granuloma of upper lip developing rapidly just before delivery: A case report	Ayumi		Iwata	ORAL-MAXILLOFACIAL SURGERY and ORTHODONTICS, The University of Tokyo Hospital
IG1-36	General presentation (Clinical study)	Poster	C000022	Evaluation of the effects of perioperative oral care intervention on postoperative outcomes in patients undergoing lung cancer resection	Shigeo		Ishikawa	Department of Dentistry, Oral and Maxillofacial Plastic and Reconstructive Surgery, Faculty of Medicine, Yamagata University
